

VOICES in MTSD

What is VOICES?

VOICES stands for Voices Offering Inspiration for all Children's Educational Support. VOICES is a collaborative group of MTSD parents and staff that provides support & information to our district families who have students with special needs. VOICES hosts a variety of parent meetings, including outings and social events. They aim to foster ongoing communication between MTSD staff & families and share resources to support students.

What is the Vision?

The Vision of VOICES is to raise awareness and acceptance of diverse educational needs of students in the Mequon-Thiensville School District, encourage a climate in our schools that will increase each child's opportunities to perform to his or her potential, and empower parents, teachers and staff to empower our children.
